

# About Us.

**Breast Reconstruction Specialists of NYC** provides reconstructive options for people considering surgery after mastectomy, lumpectomy, or congenital concerns. Those looking for a **breast reconstruction surgeon in New York** can expect a consult that reviews tissue-based methods such as DIEP Flap, Stacked Flap, SGAP Flap, and TDAP Flap, as well as combined approaches like Hybrid Breast Reconstruction. For patients weighing implant-based paths, implant breast reconstruction in New York, New York may be discussed alongside timing, staging, and potential revision needs. The practice also addresses symmetry and comfort goals through breast reduction in New York, and offers procedures such as Nipple Sparing Mastectomy, Lumpectomy Reconstruction, Nipple Reconstruction, and 3D Nipple Tattoo. Additional services can include En Bloc Capsulectomy, Breast Explant Surgery, and Breast Reconstruction Revision when changes are needed after previous work. Appointments focus on understanding medical history, lifestyle, and personal preferences to help select an appropriate plan. Clear guidance on preparation, recovery timelines, and coordination with oncology teams supports continuity of care across New York.
