

NJ GOLD STAR CONSTRUCTION

Planning work on the exterior of your home starts with a clear assessment and a plan that fits your timeline. **NJ Gold Star Construction** begins with an on-site review of the roof, chimney, gutters, and siding to outline practical options and material choices. For roof replacement in Totowa, crews prepare the site, remove old layers as needed, install underlayment and flashing, and set proper ventilation to help with attic moisture and long-term shingle life. When storms hit, emergency **roof repair in Totowa**, NJ focuses on making the structure watertight, from temporary covers to targeted fixes that stabilize the area before follow-up work. Chimney services include cleaning, repairs, and full rebuilds when masonry has failed, along with new caps or liners. Gutter installation and leak sealing help control runoff, and routine cleaning keeps water flowing. The team also handles concrete work for walkways and patios, and siding repairs or installs. Free estimates are available, with 24/7 response for urgent issues.
