Old Betsy Dental Implants and Dentures

Old Betsy Dental Implants and Dentures in Keene, TX, specializes in advanced tooth replacement solutions, including dental implants, same day dentures, tooth extractions, and partial dentures. Using the Ivoclar Programill PM7 for in-house milling, we create durable, custom dentures—often in a single visit—for comfort and function in daily activities like chewing and speaking.

Our process begins with detailed consultations, ensuring personalized care in a welcoming setting that encourages open discussions. Patients value the convenience of our efficient services, which minimize disruptions while maintaining high quality. We provide clear aftercare guidance for lasting results and healthier smiles.

Whether addressing complete or partial tooth loss, our blend of advanced technology and compassionate support makes us a trusted choice for [dentures in Keene](#) and dental implants in Keene, helping patients regain confidence and long-term oral health.
