Our dedication to quality transcends Abbey Wood. We provide services to clients around London, including Acton, Addington, Addiscombe, and Albany Park. Intersect Surveys employs sophisticated GPR technology to deliver non-invasive, real-time imaging of subterranean utilities and structures. This mitigates dangers during excavation, construction, and renovation endeavors. Our comprehensive reporting and accurate data analysis guarantee the safe and successful completion of every project.

Clients rely on Intersect Surveys not only for our technical expertise but also for our client-centric methodology. We customize our GPR survey services to meet the specific requirements of each project, whether residential, commercial, or infrastructure development. Our timely delivery, cheap price, and rigorous compliance with health and safety requirements render us the chosen option for GPR surveys in London.

Frequently Asked Questions

Q: What constitutes a GPR survey?

A: Ground Penetrating Radar (GPR) studies identify and delineate subsurface structures non-invasively through the use of radar pulses.

Q: Do you conduct GPR surveys beyond Abbey Wood?

A: Indeed, we provide GPR scans in Acton, Addington, Addiscombe, Albany Park, and several locations in London.

Q: Is Ground Penetrating Radar safe for all environments?

A: Indeed, GPR is non-invasive, secure, and appropriate for diverse settings.
