AESTHETIC BUREAU

Aesthetic Bureau operates as an LED Treatment Machine Supplier providing ISO 13485:2016 certified medical aesthetic devices to Australian clinics and wellness professionals. Founded by engineers with over 30 years of experience in clinical training and device innovation, we manufacture comprehensive IPL, LED, laser, and RF systems designed for contemporary healthcare environments. Our mission centres on empowering clinics, spas, and wellness professionals through reliable, results-driven technology supported by responsive local service. We understand that clinicians, beauticians, doctors, and surgeons require equipment that performs consistently while supporting practice development and patient satisfaction. Our medical aesthetic devices and equipment, including XEN LED and Total XEN systems, undergo rigorous quality control to meet international standards. Each device reflects our commitment to precision engineering and clinical functionality. We provide flexible rental options that enable healthcare professionals to access advanced therapeutic technology without significant capital investment. Our comprehensive client education programs ensure practitioners can integrate new systems confidently into their existing treatment protocols. Australian medical aesthetic practices value our dedication to ongoing technical support and training resources tailored to diverse clinical applications. We recognize the importance of equipment reliability in maintaining smooth clinic operations and delivering consistent patient experiences. Our manufacturing processes incorporate stringent quality assurance measures to ensure every system meets regulatory requirements and performance expectations. As a trusted LED Treatment Machine Supplier, Aesthetic Bureau continues to support Australian healthcare professionals with innovative therapeutic solutions backed by decades of engineering knowledge and clinical understanding.

Spectrum Business Park, Unit 2/21-35 Ricketts Rd, Mount Waverley VIC 3149, Australia
